Continuation of Attachment(s) 3. Information Disclosure Statements (PTO/SB/08), Paper No./Mail Date: 05/02/2008; 05/14/2008.

The request for an interference filed in Preliminary amendment filed on 07/13/1998 has been considered but it is not proper because the claims of the present application is totally different from the claim 1 of U.S. patent No. 5,648,929 (Miyamoto et al). For example, the present claims do not have **consecutive logic** blocks or **device pairs** or the block erase command are not **externally** inputted via said connector.

### REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: the present invention relates a flash memory card having a plurality of flash memory partitions each of which is divided into a plurality of physical blocks, comprising: a connector for connecting said flash memory card to an external device; a data control logic circuit for controlling a transfer of data between the outside of said flash memory card and the plurality of flash memory partitions through said connector and respectively transmitting block erase commands to the flash memory partitions including the physical blocks to be erased when the block erase commands associated with a plurality of blocks are inputted via said connector; and an address control logic circuit for managing addresses for the plurality of blocks inputted via said connector so as to disperse into the plurality of flash memory partitions by assigning the addresses to their corresponding addresses for the physical blocks of the plurality of flash memory partitions and for respectively

transmitting chip enable signals to at least two of the plurality of flash memory partitions including the physical blocks to be erased in such a manner that when the block erase commands are inputted via said connector, a period in which said at least two flash memory partitions are simultaneously busy, exists. The PRIRO ART fails to disclose or suggest such a memory card as described in the independent claims 63-65, therefore claims 63-65 are in condition for allowance.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Vu A. Le whose telephone number is (571) 272-1871. The examiner can normally be reached on M-F (7:00-3:30).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Richard Elms can be reached on (571) 272-1869. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
